

Lost bay

SEA KAYAKING AND ISLAND HOPPING

8 days

Price per person: 950 €

Number of participants: max. 14 participants

We paddle mostly along the coast, with return every evening in our apartments. Accommodation is organized on a small property, surrounded with Mediterranean green vegetation and bird singing, near the sea shore. If we never go paddling around and researching beautiful islets in the area, even in that case we would come back home full of unforgettable impressions and memories from the quiet cove, where bird and cicada singing is the only “noise” which can wake us up in the morning.

Day 1

Arrival at the Split airport;
Transfer to the Mali Drvenik island;
Welcome dinner.

Day 2

Paddling lessons and paddling around Vela rina cove.

Day 3

Paddling around the Mali Drvenik island.

Day 4

Paddling and exploring the Arkandjel islet, with nearby islets and the mainland

Day 5

Paddling and exploring the Kluda islet, with nearby islets and the mainland.

Day 6

Paddling and exploring the island of Veli Drvenik..

Day 7

Paddling and exploring the islets of Orud, Stipanska and surrounding archipelago.

Farewell dinner.

Day 8

Transfer to the Split airport

Small changes are possible due to weather conditions or similar problems we can not control.

Sea kayaking and island hopping tour "Lost bay" includes: sea kayaks Prijon Excursion (double) or Touryak (single) and other paddling equipment; expert guides and kayaking lessons; accommodation (7 overnights in a small resort, double occupancy of room); 7 breakfasts and dinners (without drinks); insurance; transfer from and to the airport; packet lunches + 1 lunch in one of the top restaurants in Dalmatia

Sea kayaking and island hopping tour „Lost bay“ does not include: airfare and other travel of non local character; drinks; various specific personal items (hygienic, medical etc.).

The whole area is mostly wild and quiet, with no fancy tourist attractions, but with lot of islets and coves, ideal for paddling, swimming and relaxing, especially before and after the high tourist season. The food is mostly fresh fish from the surrounding sea and vegetables from local gardens.
