Split city kayak tour

The tour begins from the picturesque Split harbour, where we enter our van. During the 20-25 minute journey our guide will show us the city streets and important points of the city. The van journey will finish on the Kaštelet beach on the Marjan peninsula, the green hill near the city, real “Central park” of Split.

On the beach we will enter our kayaks and paddle to the west to the small cove – the port of the luxurious villa of the former Yugoslav president Tito. After sightseeing the villa on the very sea shore and its private beach, we will paddle back eastwards, but this time we will not stop on our starting point, but we will continue paddling. On this route we will see popular, but peaceful city beaches, rocks, a small marina and the open air swimming pool of the old and famous swimming and water polo club. We will also paddle around the Sustipan cape with sheer cliffs and the remains of former old city graveyard on it. Behind the cape the view of the city port will open to us. Slowly, near the great modern marina and the western part of the port, with the magnificent view of the old city and its walls, red roofs and high bell towers. After that we will paddle back to our starting point.

Our van will wait for us and will drive back through the city, but not the same way as we did it before.
