

EVERYTHING EXCEPT A TOURIST EXPERIENCE!

The magnificent Dalmatian Hinterland

One day trip/ half day trip

One day in Dalmatian Hinterland can provide the unique experience of the original relationship between humans and nature, relax you and help you to escape from everyday life.

The area of town **Trilj** on the river **Cetina** and **Ruda** is place where we can arrange a variety of activities according to your wishes and possibilities: **canoe safari** for group on the rivers which run through fields of Sinj, where is very quiet and calm, with no falls and rapids, visiting the old, famous **water mills on the Grab creek**, some 600 years old, but still active and **Tilurium, the Roman legionary camp** in the village Gardun near the Trilj, **bowling, horse riding**.

Our lunch will be in the restaurant **Premijer** near the Trilj and little river Ruda with local specialties, but also with old Roman dishes, which ere quite different to what we eat today. Our host will tell us the interesting story of **an ancient Roman "football"**, which used to be played in that area two thousand years ago. And it is occasionally organized even nowadays.
